EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Howard Levy on June 9, 2004.

The application has been amended as follows:

Claim 17, line 3, "fixed" has been deleted.

In the specification, par. [0036], line 2, "opening" has been changed to --opened--.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Suzuki et al., Japanese references 62-70686 and 63-57889 disclose variable capacity compressors having first and second compressing chambers; and Rolaff and Kapadia teach roller pistons having eccentric units similar to applicants'.

The following is an examiner's statement of reasons for allowance: The claims are allowed because the prior art does not disclose a rotary compressor having first and second compressing chambers wherein one of the chambers selectively performs a compressing operation and the other chamber performs an idling operation, and a

pressure control unit applies a discharging pressure to the chamber performing the idling operation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to John J. Vrablik whose telephone number is (703) 308-2629. The examiner can normally be reached on M-F (8:30-5:00).
